# Nitin Vengurlekar

Chief Technology Strategist & Distinguished Mission Systems Architect  
Federal Government, Defense & Intelligence  
Coppell, Texas, United States

## Summary

Nitin Vengurlekar is the Chief Technology Strategist in Oracle Government and Education organization, with two primary areas of focus

Inbound role - Sales Enablement and Solution Strategy messaging for GovEd organization, with primary focus on Data Management

Outbound role - Build strategic relationships with SLED, Federal C-execs, Thought Leadership and build awareness of Oracle solutions at Oracle & Industry Conferences

Prior to joining Oracle, Nitin Vengurlekar was the co-founder and CTO of Viscosity North America, where his team was Gold Partner for AWS and Oracle OCI, implementing countless Cloud and on-premise solutions, including ExaCS, ExaCC/C@C, and Exadata systems, as well as Full stack Data Platforms

Nitin has authored some of the most foundational books in the industry:

Oracle Automatic Storage Management

Exadata Handbook

Data Guard Deployment Guide and Real World Experiences .

Nitin sits on the curriculum board for the following colleges:

Collin College - Computer Systems/Web & Mobile Applications Advisory Committee

Dallas Colleges (DCCCD) - Cloud Curriculum Advisory Board

Nitin is an Oracle ACE Director and also an VMware vExpert. Both of these titles are considered to be highest recognition in their respective areas.

In a previous Oracle stint- Nitin worked for Oracle for more than 17 years. Key areas across the 17 years included:

Database Cloud Architect/Evangelist in Oracle's Cloud Strategy Group in charge of Private Database Cloud messaging.

Key member of the Real Application Cluster (RAC) engineering group and RAC Product Management Team. Main emphasis was on ASM, Virtualization (VMware & OVM), 3rd Party Storage Integration, & RAC integration.

Key contributor in helping build & instantiate the Oracle-EMC Joint Escalation Center (JSC). Included support enablement and content generation for the center.

Nitin is a well-known Oracle technologist and speaker in the areas of Oracle Storage, high availability, Oracle RAC, and private database cloud. He has written many papers on storage, database tuning, and served as a contributor to Oracle documentation as well as Oracle education material.

---

## Experience

### Oracle

5 years 7 months

Chief Technology Strategist/Distinguished Architect Federal Government, Defense & Intelligence

November 2019 - Present (5 years 7 months)

Dallas/Fort Worth Area

Chief Technology Strategist

November 2019 - Present (5 years 7 months)

### Viscosity North America

CTO/Architect/Service Delivery/Cloud Evangelist

August 2012 - November 2019 (7 years 4 months)

Dallas/Fort Worth Area

Responsible for Business development and Partner relationship management. Work with Oracle, Cisco, IBM/Lenovo, VMware to create partnered solutions

My focus is and always been, providing customers with thought leadership and guidance on [right] technology and architecture for highly available systems.

Implementation of numerous Virtualization and High Availability solutions; including deployment of key HA solutions for SOA DR, Hybrid cloud build-outs, and large scale RAC.

Key accomplishments:

- Implemented Oracle DBaaS on Oracle RAC for one of largest Wall Street Trading customers
  - Large scale consolidation with Oracle RAC On the Exadata Engineered System Platform
  - Migrated one of world largest Siebel CRM implementation from AIX/DB2 to UCS Linux and Oracle using GoldenGate
  - Implemented Zero-downtime migration from iSeries to Linux for large Real Estate / Financial customer
  - Implemented Oracle SOA for High Availability with Oracle Service Bus, Web Services, and
- Orchestration of ERP, CRM, and Web Services into Business Operation and Processes

A little bit about Viscosity:

Viscosity North America specializes in helping customers maximize their investment in Oracle and SQL Server technologies. We specialize in Oracle on virtualization platforms, Oracle RAC, performance tuning, and full-stack architecture support. We have a world-class organization that excels in Database Migration, Virtualizing Oracle, Exadata Consolidation Deployment, Tuning and Exadata Patching.
